

AIRLESS PISTON PUMP

ProSpray 36

Thanks to its performance capability the PS 36 offers you a comprehensive spectrum of use indoors and out.

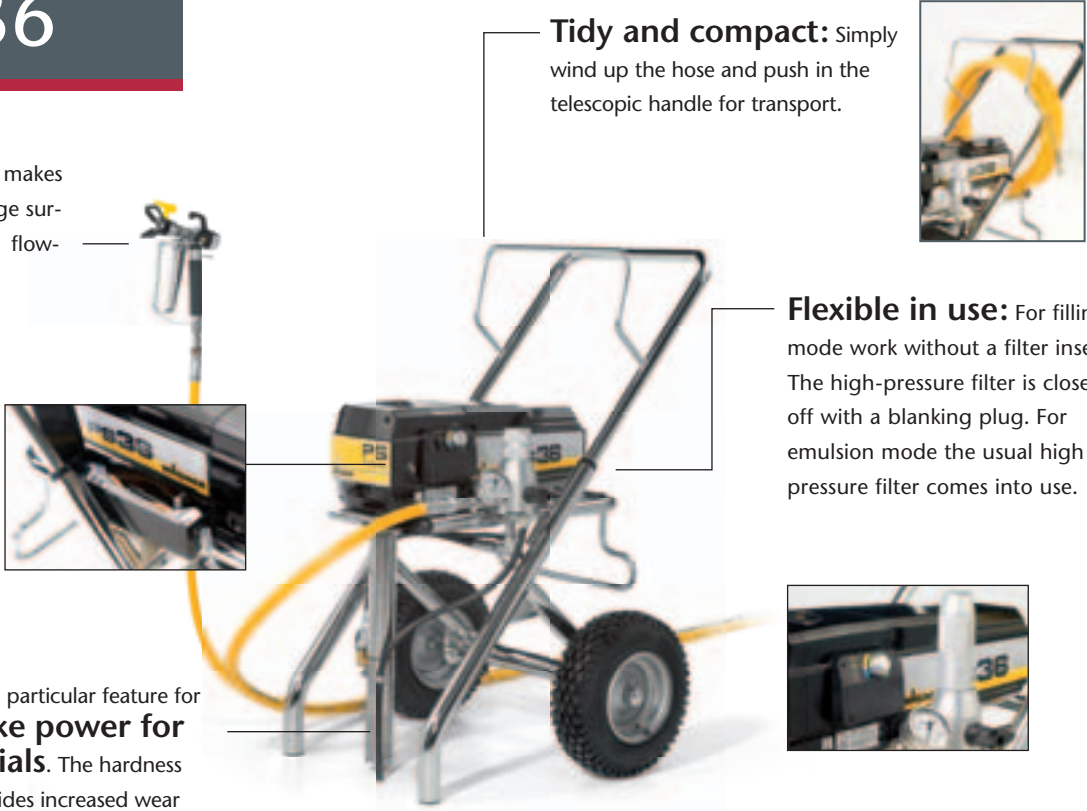

- **Economical**
The economical handling of emulsion on large building sites and filling work with only one unit make its use particularly cost-efficient.
- **Powerful**
The submersed suction system of the PS 36 allows excellent intake characteristics even for high viscosity materials.
- **Robust**
The piston pump is equipped to suit building sites and thanks to the ceramic inlet valve ball it is extremely tough.

ProSpray 36

The powerful AG 14 airless gun makes it possible for you to handle large surfaces **in one operation** flowingly and with perfect results.

Everything quickly to hand: whether tools, nozzle or gun filter; with the integral toolbox you always have everything ready to hand.

The low mounted inlet valve is a particular feature for **reinforcing the intake power for high viscosity materials**. The hardness of the internal ceramic ball provides increased wear resistance.

Tidy and compact: Simply wind up the hose and push in the telescopic handle for transport.

Flexible in use: For filling mode work without a filter insert. The high-pressure filter is closed off with a blanking plug. For emulsion mode the usual high pressure filter comes into use.

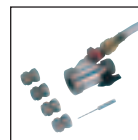

ProSpray 36 accessories

ProSpray 36 Spraypack

- PS 36 Basic unit
- + HP hose DN 13 - ND230; NPS 1/2"; 15 m
- + HP hose DN 10 - ND230; NPS 3/8"; 2,5 m
- + Adaptor I = 1/4"; A= NPS 3/8"
- + Double adaptor 3/8 NPT x 1/2 NPS
- + Connecting piece I = 1/4"; A= NPS 1/2"
- + AG 14 airless gun incl. TradeTip 2 nozzle and nozzle holder
- + TradeTip 2 nozzle 431
- + TradeTip 2 nozzle 231

Order reference no. 2301 688

| Technical Data | ProSpray 36 |
|-----------------------|------------------|
| Voltage | 230 V / 50 Hz |
| Motor output | 1.8 kW |
| Max. delivery | 4.45 l/Min |
| Max. working pressure | 23 Mpa (230 bar) |
| Max. nozzle size | 0.034" |
| Weight | 43 kg |

Texture-effect set
0258 720 Texture-effect set for applying spray filler

High pressure hoses
9984 568 HP hose DN 13-ND230; NPS 1/2", 15m
9984 567 HP hose DN 10-ND230; NPS 3/8", 2,5m
9984 574 HP hose DN 6-ND270; NPS 1/4", 15m
9984 575 HP hose DN 6-ND270; NPS 1/4", 30m

Pole guns
0096 019 Pole gun complete 100 cm
0096 005 Pole gun complete 150 cm
0096 006 Pole gun complete 270 cm

Nozzle extensions
0556 051 Nozzle extension complete 15 cm
0556 052 Nozzle extension complete 30 cm
0556 053 Nozzle extension complete 45 cm
0556 054 Nozzle extension complete 60 cm

Inline Roller
0345 010 Inline Roller IR 100, complete in practical box
